

Secretary,
Electoral Area Boundary Committee
Dept. of Environment

February 25th 2008

Re: Review of Local Electoral Area – Bray

Dear Secretary,

We request that the following observations be considered by the Electoral Boundary Committee when reviewing the Bray Town Council Electoral Area;

- Under the current electoral boundaries, there are no access points to Bray Town within the functional area of Bray Town Council. Maintaining and managing access to Bray Town is a vitally important aspect of local government for residential and commercial interests.
- Communities in the northern and southern parts of Bray Town are not residing within the functional area of Bray Town Council. As such, these residents while availing and contributing to services in Bray cannot be represented by councillors at local level.

With reference to the above observations, we therefore request that the electoral boundary be revised to allow more inclusive representation and management of the Bray urban area by Bray Town Council.

Catherine Breathnach.

Signed by The Secretary on behalf of the Wicklow Green Party (Bray)
